

Setup for Edison Production Process

Install Edison Driver for Windows

Download the drivers for the Edison board (Windows 64-bit only):

<https://software.intel.com/en-us/installing-drivers-for-intel-edison-board-with-windows>

Install these drivers on the PC that will be used to flash Edison.

Install Intel's Phone Flash Tool Lite

Download the Phone Flash Tool Lite:

http://downloadmirror.intel.com/24910/eng/PhoneFlashToolLite_5.2.4.0_win32.exe

Install the Phone Flash Tool Lite software on the same PC as the drivers

Download the Edison Image

Download the image from Google Drive:

<https://drive.google.com/drive/folders/0B5EYGMtFm907YnNZWxFzVXhXeJQ>

Make sure you select the latest revision.

Unzip the image folder onto the PC HDD
